**Role:**

As the Supervisor of Community Services, I work directly with new community providers and the families they will be working with through the hiring and on-boarding process as well as providing ongoing supervision. I have personally served as a community provider for a number of years and this experience gives me a particularly special insight on when a provider and client are a great match!

**Career History:**

I have worked with individuals with developmental and physical disabilities for the past 5 years. I started as a camp counselor at a camp for individuals with special needs in Williams, AZ. I eventually transferred into an administrative role at the camp where I provided camper assignments, behavior plan training, and assisted with running many of the behind the scenes aspects of the camp. During, the camp's off season I served as a community provider here at LIFE and worked towards my bachelor's degree. I just celebrated my three-year anniversary at L.I.F.E! I am very excited to have recently become the new Supervisor of Community Services.

**Education and Special Certifications:**

- B.S. in Family and Human Development with a Minor in Nonprofit Leadership and Management, Arizona State University, 2018

**Personal Management Philosophy:**

I am passionate about making sure that children and adults are given the tools they need to become more independent and reach their personal goals.

**Personal:**

I spend my off-time working with my own client in the community and catching up on the latest Netflix shows.
